

MAGNETICS

TRANSFERT, LAMINATION TAPES & SLURRIES

Magnetic foils are often seen on the back of financial cards, as well as gift cards, loyalty cards and membership cards. They are also used for bank books and in access control applications such as parking tickets, toll tickets or key cards in hospitality.

Magnetic stripes are essential to support the legacy of payment and access control all over the world. It remains the cheapest way to record and store data, and a must have to produce cards at best cost.

WE ARE COMMITTED IN QUALITY, COMPETITIVE COSTS & SECURITY

COLOR TAPES

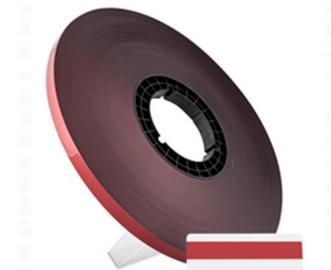

Even if black and brown are the standards, we offer a range of color tapes. Additionally, we can create magnetic tapes based upon any Pantone color.

DOUBLE SIDED TAPES

Especially developed for transparent cards, they enable to create new card designs with tapes visible on both sides. Transparent cards are trendy and perceived as high-end cards.

ASSOCIATED TEST TOOLS AND ANALYZERS

We also provide analyzers and testers to perform quality control on magnetic stripes:
Mag Tape Analyzer, Peel Strength Tester, Wear Tester (check our website for additional information)

We have the capabilities to accommodate a wide combination of sizes, shapes and adhesives to meet your specific needs.

We never stop innovating on magnetic stripes

Our R&D department is constantly working to create new products, adapting to market needs while monitoring quality to fulfill ISO and EMV standards. Our products are recognized worldwide for their quality, consistency and reliability.

LOGO TAPES

Logo tapes enable to brand cards in an original way and at accessible cost while providing a unique identity. Any type of logo can be printed on the magnetic stripes.

OVERPRINTABLE TAPES

With overprintable tapes, you keep the magnetic properties of stripes while hiding them under the printing, making the stripes fully functional but invisible.
